## **Goal Setting**

Setting goals is a healthy, positive habit no matter what stage of life you may be experiencing. This goal setting worksheet is a great place to start thinking proactively about your life and the things you'd like to achieve in the coming year, but should really be used as a simple starting point from which to launch a larger conversation with both yourself and your loved ones about how to live a more fulfilling life with iSexhibition.

- Find a place to complete this goal setting worksheet where interruptions will be minimal.
- You may complete this by yourself or in tandem with a friend, family member, spouse, significant other, child or other loved one. We recommend that if you do the latter, you should each complete the worksheet individually and then share afterwards.
- Read and complete each section below. We encourage you to expand upon the goal categories listed below — what we've provided is by no means an all inclusive list to approaching your goals. This is a simple tool, and remember that you are the guide to your life. Take control and enjoy it!
- When you are finished, use the Summary Worksheet to copy your key goals from each section and then hang / post on your refrigerator, office door, bathroom mirror or other prominent place where you'll see them everyday.

Enjoy your journey and savor your destination!

## **Establish Your “Why”**

The success of your business depends on your ability to creatively overcome every obstacle that comes between you and your dreams. Now is the time to establish why you want to become an iSexhibition business owner. Use that as a tool to carry you through difficult times.

Close your eyes for a moment and visualize your dreams. What would you do if you had more free time? What would your ideal day be like? Do you dream of spending more time with your family? Do you want greater freedom in your life — the ability to choose what you do, when you want to do it? Once you have established your “why(s)” write it(them) down and place it in a highly visible place so you can refer to it daily. Write some “why(s)” below.

## Set Goals

You improve your ability to focus on what matters most in your life and your business when you set goals based on your “why.” It’s important to know where you want to be, and then take specific actions every day to reach the destination. Think about what you want to achieve with this new business. Remember an unwritten goal is only a wish. Describe your goals below in clear, specific, vivid language.

## Drive for Success

The iSexhibition opportunity demonstrates a simple process to help your business grow. Those who keep the process simple are the ones that find the most success. The first thing that must be realized on your journey is that your road to success will have to include others. In order for your business to grow, you must follow the system.

You should do the following without fail. You will find success as you complete each activity within the given time frame, and as you sponsor new members, you will have first hand experience to teach them to do the same. As these activities begin to be duplicated by more and more people in your downline, you will begin to see your destination more clearly.
